A "domestic commodity or product" is defined as one that is either produced in the U.S. or is processed in the U.S. *substantially* using agricultural commodities that are produced in the U.S. The term "substantially" means that over 51 percent of the final processed product consists of agricultural commodities that were grown domestically. Therefore, when nonprofit SNP funds are used to acquire foods, schools and institutions must ensure that the items are in compliance with this requirement. Additional requirements for preference for agricultural products from Texas are applicable to the use of nonprofit school Child Nutrition funds, in accordance with Section 44.042, Texas Education Code.
